A striking pair of French 19th century Neo-Classical st. patinated bronze and ormolu candelabras. Each four arm candelabra is raised by a triangular scalloped base with fine scrolled foliate feet below impressive claws holding charming finely detailed ormolu turtles. At the center are three slender patinated bronze urns connected by delicate swaging chains from where the arms are seemingly growing upwards. The beautiful branch like arms are adorned with remarkable and most decorative richly chased leaves with lovely etched designs. Each of the four arms above are richly adorned with fine satin chased ormolu leaves ending with flower bud designed bobeches. All original patina and gilt throughout.
