A most charming and unusually scaled pair of French 19th century patinated bronze pot pourri pots / candlestick holders. Each urn shaped pot pourri holder is raised by a square base with ball feet and a mottled socle pedestal support. The body displays a richly chased foliate garland flanked by interlocking snake handles to each side. Above the les ives patterned rim is the removable lid with a wonderful pierced star design and top eternal flame that opens to reveal the single candle holder or pot pourri compartment. Wonderful original rich patina throughout.
