An exceptional French 18th century Regence period giltwood mirror. The original mirror plate is framed within a fine mottled foliate border. Richly carved seashells reserves and most decorative interlocking designs extend throughout the frame and are set on a beautiful lattice background. The striking pierced top crown is centered by a charming basket of flowers amidst beautiful scrolled foliate movements. Two finely detailed birds are perched at each side while above is an impressive large seashell reserve. All original gilt throughout.
